Beginning on the Service Commencement Date, Contractor will collect In-Scope PPP from Multi-Family Buildings in the Service Area as further described in this Section 2.1 (**“Multi-Family Building Collection”**) and in accordance with the terms of the Agreement and this Statement of Work.

Recycle BC reserves the right to develop and apply a methodology, at its own sole discretion, for calculating the amount of In-Scope PPP from ICI locations included in Contractor-collected In-Scope PPP delivered to the Designated Post-Collection Facility (the "**Determined ICI Amount**"). Without limiting the generality of the foregoing, Contractor acknowledges and agrees that Contractor will be solely responsible for any costs or fees charged by the Designated Post-Collection Service Provider in respect of the Determined ICI Amount.

- (f) If Contractor collects Category 8 segregated from other In-Scope PPP, Contractor must ensure that such material stream does not contain more than 1.5% by weight of Not Accepted Materials and other categories of In-Scope PPP (individually or in the aggregate). Loads of segregated Category 8 exceeding 1.5% by weight of Not Accepted Materials and other categories of In-Scope PPP (individually or in the aggregate) may be subject to rejection by the Designated Post-Collection Service Provider and may result in Service Level Failure Credits as set out in Attachment 3.4.
- (g) Contractor will implement and maintain reasonable procedures to ensure that loads delivered to the Designated Post-Collection Facility comply with the requirements set forth in this Section 2.1.2, including procedures to monitor the content of collected materials and procedures to notify and reject material from Approved Multi-Family Buildings who do not comply with such requirements. Such procedures are subject to review by Recycle BC at any time and from time to time. - (c) Contractor will perform Multi-Family Building Collection with sufficient frequency that each Approved Multi-Family Building always maintains sufficient capacity in its uncollected Containers so as not to be a barrier to use of Multi-Family Collection services by the residents of such Approved Multi-Family Building; provided that the service standard hereunder is not intended to require Contractor to perform Multi-Family Building Collection more frequently than once per week. Without limiting the generality of the foregoing, Contractor will coordinate with each Approved Multi-Family Building to arrange for a pick-up schedule for the Approved Multi-Family Building that, if requested by the Approved Multi-Family Building, is consistent.
- (d) Contractor will make collections in an orderly, non-disruptive and quiet manner, and will return Containers with their lids closed in their set out location in an orderly manner. The location of returned Containers should not block sidewalks, driveways or street parking.
- (e) If Contractor provided Multi-Family Building Collection from Multi-Family Buildings in the Service Area immediately prior to the Service Commencement Date, Contractor will provide Multi-Family Building Collection services that meet or exceed the level of service provided by Contractor prior to the Service Commencement Date.

- (a) Except to the extent and on the conditions otherwise approved by Recycle BC in writing, Contractor will provide Containers to each Approved Multi-Family Building that provide sufficient volume to accommodate In-Scope PPP generated by such Approved Multi-Family Building between collections so that Container capacity and design is not a barrier to use of Multi-Family Collection services by the residents of such Approved Multi-Family Building.
- (b) Except to the extent and on the conditions otherwise approved by Recycle BC in writing, if Multi-Family Buildings are added to the list of Approved Multi-Family Buildings under Section 2.1.1(b), Contractor will deliver Containers to any such Multi-Family Buildings at least ten Business Days prior to the start date provided agreed on by Contractor and Recycle BC.
- (c) Except to the extent and on the conditions otherwise approved by Recycle BC in writing, Contractor will deliver a Container to a requesting Approved Multi-Family Building within seven Business Days of the Approved Multi-Family Building's initial request.
- (d) If any Approved Multi-Family Building chooses to provide its own Containers, Contractor will handle such Containers in such a way as to prevent undue damage, and Contractor will be responsible for unnecessary or unreasonable damage to such Containers.
- (e) If Contractor did not provide Multi-Family Building Collection in the Service Area immediately prior to the Service Commencement Date, Contractor will deliver Containers that meet the requirements set out in this Agreement to each Approved Multi-Family Building at least ten Business Days prior to the Service Commencement Date unless otherwise approved by Recycle BC in writing.
- (f) Contractor may not collect In-Scope PPP in single-use bags except in accordance with Section 2.1.4(g).

- (g) If Contractor provided Multi-Family Building Collection in the Service Area immediately prior to the Service Commencement Date and, at such time, collected In-Scope PPP in single-use bags, Contractor will:
 - (i) except to the extent and on the conditions otherwise approved by Recycle BC in writing, deliver Containers that meet the requirements set out in this Agreement to each Approved Multi-Family Building at least ten Business Days prior to July 1, 2020; and
 - (ii) not collect In-Scope PPP in single-use bags after July 1, 2020.
- (h) If Contractor (i) is transitioning from single-use bags to Containers pursuant to Section 2.1.4(g) or (ii) proposes to change the type of Containers it uses for Multi-Family Building Collection in the Service Area, Contractor will submit a detailed transition plan to Recycle BC a minimum of six months prior to the scheduled or planned change. Any change to the type of Containers used for Multi-Family Building Collection in the Service Area is subject to approval in writing by Recycle BC, which approval will not be unreasonably withheld.
- (i) Contractor will replace Containers once they no longer meet a sanitary and well-maintained condition.

2.1.5 Designated Post-Collection Facility

- (a) Contractor will deliver all collected In-Scope PPP to the Designated Post-Collection Facility on the day of collection, unless alternative arrangements have been approved in writing by Recycle BC. If Contractor is unable to deliver collected In-Scope PPP to the Designated Post-Collection Facility on the day of collection for an unforeseen reason outside Contractor's reasonable control, Contractor will deliver such collected In-Scope PPP to the Designated Post-Collection Facility as soon as possible thereafter and will store such In-Scope PPP during the interim in a safe and secure manner. Contractor may not charge any amounts to the Designated Post-Collection Service Provider in connection with such storage. Contractor will not deliver In-Scope PPP to any location other than the Designated Post-Collection Facility or dispose of any collected In-Scope PPP without prior written authorization from Recycle BC.
- (b) Contractor will deliver all collected In-Scope PPP to the Designated Post-Collection Facility segregated, at a minimum, in the manner set out in Attachment 2.1.2.
- (c) If Contractor collects Categories 1, 2, 3(a), 3(b), 6 and 7 in multi-stream, Contractor must (i) unload Categories 1, 2 and 3(b) in a separate bunker or other location than Categories 3(a), 6 and 7 and (ii) unload Categories 3(a), 6 and 7 in a separate bunker or location than Categories 1, 2 and 3(b), in each case as directed by the Designated Post-Collection Service Provider. Loads delivered in violation of this Section 2.1.5(c), including as a result of driver error or mechanical failure, may be subject to a Service Level Failure Credit as set out in Attachment 3.4.
- (d) Contractor will follow all reasonable instructions and procedures regarding the delivery of In-Scope PPP as directed by the Designated Post-Collection Service Provider and Recycle BC, including but not limited to instructions and procedures pertaining to health and safety, delivery and unloading of In-Scope PPP, audit procedures and weigh scale operation.

- (e) If Contractor is scheduled to collect In-Scope PPP from an Approved Multi-Family Building on a holiday, Contractor will coordinate directly with the Designated Post-Collection Service Provider a minimum of ten Business Days in advance of such holiday in order to schedule the delivery of such In-Scope PPP.
- (f) If the Service Area is within the Metro Vancouver Regional District, the Designated Post-Collection Facility will be located within 30 minutes (on average based on typical traffic conditions between 10 am and 2 pm Monday to Friday) from the Service Area boundary at the point of least distance to the Designated Post-Collection Facility.
- (g) If the Service Area is not within Metro Vancouver Regional District, the Designated Post-Collection Service Provider will locate the Designated Post-Collection Facility within 60 kilometers from the Service Area boundary at the point of least distance to the Designated Post-Collection Facility. If delivery to the Designated Post-Collection Facility requires the use of a ferry, then the delivery boundary is the ferry terminal and the portion of the trip that requires ferry travel is to be the responsibility of the Designated Post-Collection Service Provider. If the Designated Post-Collection Service Provider has used commercially reasonable efforts to locate the Designated Post-Collection Facility within such area but is unable to do so, Contractor will not be required to deliver In-Scope PPP to the Designated Post-Collection Facility except on terms mutually acceptable to Contractor and the Designated Post-Collection Service Provider.
- (h) Recycle BC may change the location of the Designated Post-Collection Facility upon 30 days' written notice. If Recycle BC changes the location of the Designated Post-Collection Facility such that the new location is greater than ten kilometers beyond the applicable maximum distance set out in Section 2.1.5(f) or (g), as the case may be, such change will be made pursuant to the change process in Section 2.2 of the Agreement (provided that Contractor may not refuse such a change).
- (i) Unless Recycle BC otherwise agrees in writing, Contractor may not consolidate or otherwise sort In-Scope PPP collected from Approved Multi-Family Buildings before delivering such materials to the Designated Post-Collection Facility. Such approval may be subject to such conditions or procedures as Recycle BC considers appropriate or necessary in the circumstances and may be revoked at any time by Recycle BC in its sole discretion, including without limitation if Contractor has failed to comply with such conditions or procedures.
- (j) If the Designated Post-Collection Service Provider rejects a load of In-Scope PPP from Contractor due to a verified claim that such load contains more than 3% by weight of Not Accepted Materials or contains any hazardous or special waste, Recycle BC reserves the right to designate alternative procedures and requirements associated with that load and to deduct any additional costs associated therewith from the Fees otherwise due to Contractor.

2.1.6 Spillage.

- (a) All loads collected by Contractor will be completely contained in collection vehicles at all times, except when material is actually being loaded. Hoppers on all collection vehicles will be cleared frequently to prevent the occurrence of blowing or spillage.
- (b) Any spillage of materials that occurs during Multi-Family Building Collection will be immediately cleaned up or removed by Contractor at its sole expense.

Contractor will keep accurate records of each occurrence of spillage and of its clean-up, and will make such records available to Recycle BC on request and, if requested by Recycle BC, as part of a regular report to be delivered with such frequency as requested by Recycle BC (but not more frequently than monthly). Contractor expressly acknowledges it is solely responsible for any violations of Applicable Law that may result from said spillage.

- (c) Without limiting Section 2.1.6(b) above, Contractor will maintain all collection vehicles to ensure that no liquid wastes (e.g., leachate) or oils (e.g., lubricating, hydraulic, or fuel) are discharged on the property of Approved Multi-Family Buildings, Public Streets or Private Roads. All collection and route supervisor vehicles used by Contractor will be equipped with a spill kit sufficient in size to contain a spill of equivalent volume to the largest lubricating, hydraulic or fuel tank on the largest collection vehicle. Any discharge of liquid wastes or oils that may occur from Contractor's collection vehicles will be cleaned up or removed by Contractor within three hours of the discharge and will be remediated by Contractor at its sole expense. Such clean-up or removal will be documented with pictures, and notice of such clean-up or removal will be provided to Recycle BC in writing. Contractor will comply with all Applicable Laws in respect of ground-water or drainage systems safety and standards.

2.1.7 Routes

- (a) Except for In-Scope PPP collected from ICI locations in accordance with Section 2.1.1(e), Contractor collection vehicles used to perform Multi-Family Building Collection may only be used to collect materials from locations other than Approved Multi-Family Buildings if they are emptied before and after such other use and Contractor has obtained prior approval from Recycle BC in writing.

2.1.8 Pilot Programs.

- (a) Recycle BC may wish to test or implement one or more new services or developments in PPP material segregation, processing, or collection technology. Recycle BC will notify Contractor in writing at least 90 days prior of its intention to implement a pilot program or of its intentions to utilize a new technology system in the Service Area. The allocation of any costs (or savings) accrued by Recycle BC-initiated pilot programs will be negotiated prior to implementation pursuant to the change process in Section 2.2 of the Agreement. If Recycle BC deems the pilot a success, and desires to incorporate the service or development represented in the pilot program into this Statement of Work, such a change will be made pursuant to the change process in Section 2.2 of the Agreement.
- (b) Contractor-initiated pilot programs will require prior written notification to and written approval by Recycle BC. Contractor-initiated pilot programs will be performed at no additional cost to Recycle BC.

SECTION 5. Fees

The Fees payable by Recycle BC for the performance by Contractor of the SOW Services are set out in Attachment 5 to this Statement of Work, and such Fees begin after the Service Commencement Date. For the avoidance of doubt, Contractor acknowledges and agrees that it will not be entitled to receive any Fees in respect of In-Scope PPP collected from ICI locations.

SECTION 6. Additional Terms

Collection that is more frequent than once per week is considered to be above the service standard required of Contractor, and Contractor may charge Customers a fee for Multi-Family Building Collection that is more frequent than once per week.
- 6.2 Scavenging Forbidden. Contractor will not scavenge, or permit any employee (or, at the request of Recycle BC, any other person) to scavenge any materials (including, if permitted by law, materials other than In-Scope PPP that have been set out to be collected by other collection service providers) at any time and at any location during Contractor’s performance of the SOW Services or otherwise.
- 6.3 Risk. Contractor will be responsible for all risks, including risk of loss of, or damage caused by, the In-Scope PPP from the time the In-Scope PPP is collected by Contractor until delivery to the Designated Post-Collection Facility. In-Scope PPP will be deemed to be delivered when off-loaded from Contractor’s vehicles at the Designated Post-Collection Facility and accepted by the signature of an authorized representative of the Designated Post-Collection Service Provider. Contractor will be responsible for the cost of any damage to Containers or the Designated Post-Collection Facility caused by Contractor.

**ATTACHMENT 5 TO SCHEDULE 2.1(b)
FEES**

1. In this Attachment, the following terms will have the following meaning:

“Bonus Period” means each full calendar year day period during the SOW Term, commencing on January 1 and ending on December 31 of each year; provided, however, that (i) if the Service Commencement date is not January 1, the initial Bonus Period shall commence on the Service Commencement Date and end on December 31 of that year and (ii) if the SOW Term does not end December 31, the final Bonus Period will commence of January 1 of that year and end on the date on which the SOW Term ends..

“Multi-Family Household Baseline” means the number of Multi-Family Households in Approved Multi-Family Buildings as initially set out in the list agreed on pursuant to Section 2.1.1(a), as may be modified when Multi-Family Buildings are added to or removed from the list of Approved Multi-Family Buildings in accordance with Section 2.1.1.

2. In consideration for Contractor’s performance of the SOW Services Recycle BC will pay Contractor:

(a) The selected (as indicated by an x in the associated check box) annual amount in the table below times the Multi-Family Household Baseline (to be payable in arrears, in equal quarterly payments on net 30 day terms, provided that Contractor has submitted all applicable claims):

| | Multi-Family Household Baseline | \$ per Multi-Family Household per Year |
|--------------------------|--|---|
| <input type="checkbox"/> | Single-stream – Categories 1, 2, 3 (a), 3 (b), 6 and 7 | \$18.30 |
| <input type="checkbox"/> | Multi-stream – Categories 1, 2 and 3 (b) separate from Categories 3 (a), 6 and 7 | \$21.90 |

(b) Each of the following that are selected (as indicated by an x in the associated check box) in the table below (which may be none): (i) the Resident Education Top Up amount; (ii) the Service Administration Top Up amount; and (iii) if Contractor also provides depot services in the Service Area pursuant to an active Statement of Work for Depot Collection Services, the Depot Top Up, in each case as set out in the table below times the Multi-Family Household Baseline to be invoiced and paid in arrears, in equal quarterly payments, provided that Contractor has submitted all applicable claims:

| | Top Up available to local governments accepting Multi-Family Building incentive | \$ per Multi-Family Household per Year |
|--------------------------|--|---|
| <input type="checkbox"/> | Resident Education Top Up | \$1.00 |
| <input type="checkbox"/> | Depot Top Up | \$0.25 |
| <input type="checkbox"/> | Service Administration Top Up | \$1.25 |

Without limiting Contractor’s obligations under this Statement of Work (including without limiting the cost Contractor is required to incur to perform such obligations), the Resident Education Top Up amount must be used for the purpose of providing resident education in respect of Multi-Family Building Collection.

- (c) If selected (as indicated by an x in the associated check box), the following per tonne amount, to be invoiced and paid pursuant to the claims submission process in accordance with the terms of the Agreement:

| Multi-Family Building Collection Financial Incentive | | |
|--|------------------------------|--------------|
| <input type="checkbox"/> | Category 8 - Glass packaging | \$ per Tonne |
| | | \$80.00 |

- (d) For each Bonus Period, the Achieved Bonus Amount times the average Multi-Family Household Baseline for such period, where the “Achieved Bonus Amount” is the performance bonus amount in the table below that corresponds with the average amount of In-Scope PPP per Multi-Family Household actually collected by Contractor during the Bonus Period. The foregoing will be calculated annually, at the end of each Bonus Period, based on the average Multi-Family Household Baseline for such period and the approved claims submitted for the Bonus Period. The Achieved Bonus Amount for a Bonus Period, if any, will be paid no later than April 30 of the following year.

For purposes of calculating the Achieved Bonus Amount, Recycle BC reserves the right to develop and apply a methodology, at its own sole discretion, to calculate the average amount of (i) Not Accepted Materials in Contractor’s collected material and (ii) In-Scope PPP from ICI locations in Contractor’s collected materials for the purposes of calculating the average In-Scope PPP collected per Multi-Family Household in the applicable year.

If the Bonus Period is a partial calendar year, the Achieved Bonus Amount will be calculated by Recycle BC on a pro-rated basis taking into account such factors as Recycle BC, acting reasonably, may consider relevant.

| Calculation of Achieved Bonus Amount | | | | | | |
|--|--------------------------------------|----------|------------|------------|------------|----------|
| Average In-Scope PPP collected per Multi-Family Household Per Year | 80-89 kg | 90-99 kg | 100-109 kg | 110-119 kg | 120-129 kg | > 130 kg |
| Achieved Bonus Amount | \$ per Multi-Family Household | | | | | |
| | \$0.50 | \$1.00 | \$1.50 | \$2.00 | \$2.50 | \$3.00 |

- (e) If Contractor also provides collection services to curbside households pursuant to another Statement of Work under the Agreement (“**Curbside Household Collection**”), and In-Scope PPP collected from Multi-Family Buildings under this Statement of Work is collected in a vehicle with In-Scope PPP collected in respect of Curbside Household Collection, then, for the purpose of calculating the amounts payable under subsections (a), (b), (c) and (d), the Multi-Family Household Baseline will be adjusted to exclude the number of Multi-Family Households whose In-Scope PPP has been collected in this manner.

3. Adjustment of Multi-Family Household Baseline.

- (a) On an annual basis, on a date to be determined by Recycle BC, and at such other times as the parties may agree, Contractor will, in good faith, report and attest (in a form

acceptable to Recycle BC) as to (i) the then-current number of Multi-Family Households in the Approved Multi-Family Buildings and (ii) the Multi-Family Buildings in the Service Area from which Contractor collects In-Scope PPP.

(b) Recycle BC may also provide evidence of the then-current number of Multi-Family Households in the Approved Multi-Family Buildings. Based on Contractor's attestation and the evidence provided by Recycle BC, Recycle BC and Contractor will work in good faith to mutually agree on the new Multi-Family Household Baseline. If the agreed upon new values of the foregoing trigger a change in the Fees payable pursuant to this Attachment, the parties will update this Attachment by execution of a change order. Any Dispute in establishing the foregoing will be resolved by the Dispute resolution process under the Agreement.

4. If the average annual amount of In-Scope PPP collected per Multi-Family Household by Contractor, in any 12 month period (based on the Multi-Family Household Baseline), falls below 75 kilograms, then Recycle BC may require Contractor to, within 90 days, prepare and submit to Recycle BC for approval a remediation plan designed to raise its collection yield above 75 kilograms per Multi-Family Household. Following approval of the remediation plan by Recycle BC, Contractor will execute the plan. Contractor will provide monthly reporting to Recycle BC detailing the progress and outcomes of the remediation plan. If material improvement does not occur within 90 days of beginning to execute the plan, then Contractor will work with Recycle BC to establish additional changes and to adopt best practices recommended by Recycle BC in order to increase collection yield, and, at Recycle BC's discretion, may result in an equitable downward change in the Fees to reflect the reduced value of the amount of In-Scope PPP being collected by Contractor.
