

RECYCLEBC™

INFORMATION UPDATE

With transportation challenges in some areas starting to ease and our primary end market for glass in the Fraser Valley no longer under evacuation order we continue to implement a phased collection restart plan for glass bottles and jars and foam packaging.

We are pleased that we are now able to resume collection of glass bottles and jars province-wide.

- Collection of **glass bottles and jars** from **curbside and multi-family** in **Metro Vancouver, Fraser Valley and Vancouver Island** resumed **December 13**.
- Collection of **glass bottles and jars** from **curbside and multi-family** in all **other areas of BC** (as applicable) resumes **December 20**.
- Collection of **glass bottles and jars** from **depots** resumes **December 20**.

Foam collection at depots across BC **remains suspended** due to challenges with capacity at receiving facilities and access to end markets. We continue to work with our post-collection service provider to lift this final suspension as soon as possible.

Managing materials responsibly continues to be a priority. We continue to will work with all partners to ensure we handle all materials as effectively as possible.

Thank you for your patience as we work towards resuming full collection of all materials.
