# Pack Lean, Leave Clean

---

June 22 – September 6, 2022

The Pack Lean, Leave Clean campaign from Recycle BC is designed to raise awareness about opportunities for visitors and residents of British Columbia who enjoy outdoor recreation to recycle their camping packaging, specifically soft plastics.

The campaign is based on the 'take nothing but pictures, leave nothing but footprints' maxim, providing instructions on how to pack, pick up, and dispose of recyclable materials after your stay in nature, with an emphasis on soft plastics. There are many different kinds of outdoor recreationists in BC, and we have identified the following three categories of campers/camping for this campaign: Backpacking, Car Camping and Day-Trippers.

Informative 'Pack Lean, Leave Clean' tips highlight materials campers may not know are recyclable and demonstrate how and where to correctly recycle or return them, as well as tips on how to pack recyclable materials to bring them back through fun and engaging social campaigns.

The campaign launches in June 2022 to align with the beginning of the camping season in the province.

# Campaign Messages

---

Campaign messaging is focused on information about plastics campers may not know are recyclable, and creating easy-to-follow pathways for how and where to correctly recycle on their return from the outdoors.

The main call to action for all the campaign is: pack up your recycling, including soft plastics, after camping and take them home or to an appropriate drop-off location on your way home.

## Messages

1. Pack Lean—minimize packaging before you leave, think about recycling at the start of your trip
2. Leave Clean—packing up responsibly, taking your recyclables with you for home or the depot
3. Trail Tips/Depot Drops—outdoor recycling tips and how to find a depot
4. Recycle Right—various items are recyclable, and can be recycled at home or at a depot

# Social Media Guidelines

## How you can participate

This toolkit is designed to help you and your partners promote the campaign and keep our outdoor spaces beautiful.

We encourage you to participate in the launch by posting the approved messages and/or sharing our Pack Lean, Leave Clean posts on your social media channels.

The Social Media Samples and Visual Assets in this toolkit are approved messaging from Recycle BC.

You can follow and tag us on this channels:

- Facebook [@recyclebc](#)
- Twitter [@recyclebc](#)
- Instagram [@recyclebc](#)  
(don't forget to check our Insta Stories too!)

# Recycling in BC Parks

---

## BC Parks Recycling Guidelines

Our parks are not self-cleaning. As part of its [Responsible Recreation Guide](#), BC Parks emphasizes the importance of cleaning up after you've visited. The responsibility is with visitors to remember to leave nature the way they found it, packing up and taking home garbage, organics and recyclables.

### **Taking recyclables with you at the end of your stay is important because:**

- Waste and organic matter attracts wildlife and increases wildlife-human conflict.
- Leaving waste in bear caches and bear hangs can damage these facilities and prevent others from using them.
- Waste ruins the enjoyment of the park for other visitors.

# What are Soft Plastics?

The Pack Lean, Leave Clean Campaign encourages campers in BC to bring home all recyclables after camping, focusing primarily on soft plastic packaging (including plastic bags and overwrap, and other flexible plastic packaging).

Many campers in BC may not know that packaging for camping foods are accepted at depots, including:

- Energy bar wrappers
- Chocolate bar wrappers
- Energy gel packets
- Snack and candy pouches (with zippers, like: jerky, moon cheese, hydration powder)
- Meal pouches
- Plastic bags
- Overwrap (overwrap is the plastic packaging around things like flats of pop, diapers, paper towels, etc.)

These items are accepted at a Recycle BC depots or drop-off locations. They should not be included in household recycling.

# Where to Recycle Residential Camping Packaging

---

**Flexible plastic packaging, plastic bags and overwrap, hard plastic packaging, metal containers, cartons, paper, glass bottles and jars, and foam packaging at participating locations:**

(Bottle Depots, Eco-Depots, Transfer Stations, Waste Management Centres, selected Return-Its, Landfills)

**Flexible plastic packaging, plastic bags and overwrap, and foam packaging at:**

London Drugs

**Hard plastic packaging, metal containers, cartons, paper (and in some communities glass):**

Recycle at home in recycling bins and/or bags

# Content Partnership

---

## **Pack Lean, Leave Clean Articles**

As part of the campaign, Recycle BC is creating blog content that will be available through our website via the Pack Lean, Leave Clean page.

Blogs will be promoted on our social channels throughout the campaign, and we encourage partners to re-post or link to the blogs as appropriate.

Please reach out to our team if your organization is interested in cross-posting articles to your site or blog.

# About Recycle BC

---

Recycle BC is a not-for-profit organization responsible for residential [packaging and paper product recycling](#) throughout British Columbia, servicing over 1.8 million households or over 99% of BC through curbside, multi-family and/or depot services.

Recycle BC ensures packaging and paper is collected from households and recycling depots, sorted and responsibly managed and recycled. Recycle BC provides recycling services either directly to communities or by working in partnership with local governments, First Nations, private companies, and other not-for-profit organizations. Over 200,000 tonnes of material is collected from households and depots annually.

The program is [funded by businesses](#), like retailers, manufacturers and restaurants that supply packaging and paper products to BC residents. Recycle BC provides financial support to its collection partners, shifting costs away from homeowners.
