- (c) Contractor will maintain all In-Scope PPP collected by Contractor pursuant to this Statement of Work (including In-Scope PPP collected at a Satellite Depot or Temporary Collection Site) for pick-up by the Designated Post-Collection Service Provider in a manner that is segregated, at a minimum, as set out in Attachment 2.1.2, and which is baled (or not baled) in accordance with the selections in the table(s) in Section 1(a) of Attachment 5.

- (f) Recycle BC may change the Designated Post-Collection Service Provider upon thirty (30) days' notice.
- (g) If the Designated Post-Collection Service Provider rejects any material made available for pick-up at a Principal Depot due to (i) more than 5% by weight of Not Accepted Materials or (ii) any Hazardous Waste, Recycle BC reserves the right to designate alternative procedures and requirements associated with respect to such material and to deduct any additional costs associated therewith from the Fees otherwise due to Contractor.

2.1.6 PPP from Industrial, Commercial and Institutional Sources.

- (a) Contractor will not be entitled to receive any Fees or other payments in respect of ICI PPP and will be solely responsible for any costs associated with the collection and management of ICI PPP. The amount of Household In-Scope PPP collected at a Depot (the "**Determined Household Amount**") will be determined in accordance with Section 2.1.6(b). Without limiting the generality of the foregoing, Contractor acknowledges and agrees that Contractor will be solely responsible for any costs or fees charged by the Designated Post-Collection Service Provider in respect of ICI PPP.
- (b) For purposes of determining the Determined Household Amount in respect of a Depot, Contractor will adopt one of the following options (each, an "**ICI Management Option**") for such Depot, in each case as set forth in Attachment 2.1.1, to be approved by Recycle BC.

Option 1 – Separation of Household In-Scope PPP from ICI PPP – Contractor will ensure that Household In-Scope PPP is received, weighed and processed separately from ICI PPP. Contractor will implement and maintain rules and procedures acceptable to Recycle BC to ensure that Household In-Scope PPP is received, weighed and processed separately from ICI PPP in such manner (including ensuring that Collection Containers are clearly marked to indicate which are for Household In-Scope PPP and which are for ICI PPP) as is necessary to ensure that the amount of Household In-Scope PPP collected at the Depot is accurately determined. The separation of Household In-Scope PPP and ICI PPP will be clearly communicated to Customers in a manner acceptable to Recycle BC and consistently applied and enforced by Contractor.

Option 2 – No Collection of ICI PPP – Contractor will not accept ICI PPP at the Depot. Contractor will implement and maintain rules and procedures acceptable to Recycle BC to ensure that only Household In-Scope PPP is collected at the Depot. The fact that ICI PPP may not be delivered to the Depot will be clearly communicated to Customers in a manner acceptable to Recycle BC and consistently applied and enforced by Contractor.

Option 3 – Calculation of Mix of Household In-Scope PPP and ICI PPP – Contractor will determine the percentage of In-Scope PPP collected at the Depot that is comprised of ICI PPP (the "**Determined ICI Amount**") using a methodology acceptable to Recycle BC in its sole discretion. Once the Determined ICI Amount has been determined in accordance with such methodology, Contractor will

provide to Recycle BC such records and information as Recycle BC reasonably requires in order to confirm that the Determined ICI Amount accurately reflects ratio of Household In-Scope PPP to ICI PPP collected at the Depot.

Every two years, on a date to be determined by Recycle BC, and at such other time as the parties may agree, Contractor will determine the then-current ratio of Household In-Scope PPP to ICI PPP collected at the Depot. If Recycle BC determines that Determined ICI Amount does not accurately reflect the then-current ratio of Household In-Scope PPP to ICI PPP collected at the Depot, Recycle BC will be entitled to make such adjustments to the Determined ICI Amount as it considers necessary.

- (c) All rules, procedures and methodologies adopted by Contractor pursuant to this Section 2.1.6 are subject to review by Recycle BC at any time and from time to time. If Recycle BC determines that such rules, procedures or methodologies in respect of a Depot are inadequate for purposes of ensuring that Contractor only receives Fees or other payments under this Statement of Work for Household In-Scope PPP, Contractor will adopt such rules, procedures or methodologies as Recycle BC may reasonably require in order to ensure compliance with this Section 2.1.6.
- (d) Contractor may change the ICI Management Option for a Depot with the prior written approval of Recycle BC. A decision to accept a request to change the ICI Management Option for a Depot is solely at Recycle BC's discretion, but will not generally be withheld if Recycle BC determines that such change will not impair the ability of Recycle BC to accurately determine the amount of Household In-Scope PPP collected at the Depot.
- (e) Recycle BC may, upon thirty (30) days' written notice, change the ICI Management Option applicable to a Depot if Recycle BC, in its sole discretion, determines that (i) the rules and procedures necessary to operate such Depot in a manner consistent with the applicable ICI Management Option are not being consistently applied and enforced or (ii) the application of the applicable ICI Management Option does not enable Recycle BC to accurately determine the amount of Household In-Scope PPP collected at the Depot.

2.1.7 Spillage.

- (a) All In-Scope PPP collected at a Depot will be completely contained in Collection Containers at all times, except when material is actually being loaded.
- (b) Any spillage of materials that occurs at a Depot or while transporting In-Scope PPP from a Satellite Depot to the designated Principal Depot will be immediately cleaned up or removed by Contractor at its sole expense. Contractor will keep accurate records of each occurrence of spillage that occurs outside of the Principal Depot property and of its clean-up and will make such records available to Recycle BC on request. Contractor expressly acknowledges it is solely responsible for any violations of Applicable Law that may result from said spillage.
- (c) Without limiting Section 2.1.7(b) above, any discharge of liquid wastes or oils that may occur at Depots or while transporting materials from a Satellite Depot to the designated Principal Depot will be promptly cleaned up or removed by Contractor and will be remediated by Contractor at its sole expense. Such clean-up or removal will be documented with photographs and notice of such clean-up or removal will be provided to Recycle BC in writing. Contractor will comply with all Applicable Laws in respect of groundwater or drainage systems safety and standards.

Contractor will immediately notify Recycle BC of any spills that enter groundwater or drainage systems.

- (b) Each Depot will remain open for collection of In-Scope PPP on the day(s) of the week and at the hours specified under Section 2.1.8(a) regardless of weather conditions, unless weather conditions are such that continued operation would result in danger to Contractor personnel, Customers or property. In the case of closure, Contractor will send a service disruption notice to their Recycle BC collection specialist.

2.1.9 Pilot Programs.

- (a) Recycle BC may wish to test or implement one or more new services, technology systems or developments in PPP material segregation, processing or collection technology (collectively, "**Pilot Program**"). Recycle BC will provide at least ninety (90) days' written notice of its intention to implement a Pilot Program. The allocation of any costs (or savings) accrued by Recycle BC-initiated Pilot Programs will be negotiated prior to implementation pursuant to the change process in Section 2.2 of the Agreement. If Recycle BC deems the Pilot Program a success and desires to incorporate the service, technology or development from the Pilot Program into this Statement of Work, such a change will be made pursuant to the change process set out in Section 2.2 of the Agreement.

Any change in whether Contractor bales or does not bale In-Scope PPP must be made pursuant to the change procedure in Section 2.2 of the Agreement.

A Principal Depot will initially be in a particular Depot Collection Fee category (“**Depot Fee Group**”), as identified in the Depot Collection Fees table immediately above, based on:

- if collection of Household In-Scope PPP at such Principal Depot pursuant to the Agreement commenced on or before August 1, 2023, the aggregate weight of Household In-Scope PPP collected at such Principal Depot in the twelve (12) month period from August 1, 2023 to July 31, 2024;

- if collection of Household In-Scope PPP at such Principal Depot pursuant to the Agreement commenced after August 1, 2023 but on or before July 1, 2024, the annualized aggregate weight of Household In-Scope PPP collected at such Principal Depot from such date to July 31, 2024; or
- if collection of Household In-Scope PPP at such Principal Depot pursuant to the Agreement commenced or commences after July 1, 2024, Recycle BC's good faith estimate (based on discussions with Contractor and the best available information at such time) of the aggregate weight of Household In-Scope PPP to be collected at such Principal Depot over a twelve (12) month period.

Recycle BC will adjust the Depot Fee Group on the first day of each calendar year, based in each case on the aggregate weight of Household In-Scope PPP collected at such Principal Depot in the twelve (12) month period ending on August 31 of the immediately preceding calendar year (pro-rated in the case of a partial year).

Recycle BC reserves the right at its sole discretion to adjust a Principal Depot's Depot Fee Group for a calendar year if the aggregate weight of Household In-Scope PPP collected at such Principal Depot is 5% more (or less) than the upper (or lower) tonne threshold for such Depot Fee Group. Upon changing the Depot Fee Group for a calendar year, which may be done retroactively:

- if the Principal Depot is moved to a higher Depot Fee Group (i.e. from Depot Fee Group 3 to Depot Fee Group 4), any incremental Household In-Scope PPP collected at the Principal Depot that is more than 5% greater than the upper threshold for the initial Depot Fee Group will be paid at the Depot Collection Fee rates of the next higher Depot Fee Group; or
- if the Principal Depot is moved to a lower Depot Fee Group (i.e. from Depot Fee Group 3 to Depot Fee Group 2), Recycle BC will pay Contractor such amount as is necessary to ensure that Contractor receives, in the aggregate, the amount Contractor would have been entitled to receive if the Principal Depot had been in the lower Depot Fee Group for such calendar year.

2. Recycle BC will adjust the Depot Collection Fees each year, up or down, on the first day of January of each year. Recycle BC reserves the right to choose the adjustment mechanism to be used each year, as between (i) the results of a cost study that samples collection service providers to determine the costs associated with the performance of Depot Collection services; and (ii) an adjustment that is based on the Consumer Price Index (CPI) for BC (All Items), which will be calculated as follows:

- (a) Depot Collection Fee = Depot Collection Fee in the previous year x (1 + (percentage change in CPI/100)), where
- (i) percentage change in CPI = (current year CPI – previous year CPI)/(previous year CPI) x 100%; and
 - (ii) each year's CPI is the published CPI on September 1st of the year prior.
