

RECYCLING GIVES MATERIALS A SECOND LIFE

By working together with residents and partners, our program is recycling materials as responsibly and locally as possible.

PLASTICS

Plastics are processed in Metro Vancouver, creating pellets for new products like containers, pipes and planter pots.

METALS

Metals are sold to end markets across North America and recycled into new packaging and sheet metal.

GLASS

Most collected glass stays in BC and is processed into new bottles and jars, sandblast material and construction aggregate.

PAPER

Much of the paper collected is sold to mills across North America and recycled into new products like cardboard boxes, paperboard packaging and tissue.
