

RECYCLING GIVES MATERIALS A SECOND LIFE

By working together with residents and partners, our program is recycling materials as responsibly and locally as possible.

PLASTICS

Plastics are processed in Metro Vancouver, creating pellets for new products like containers, pipes and planter pots.

METALS

Metals are sold to end markets across North America and recycled into new packaging and sheet metal.

GLASS

Most collected glass stays in BC and is processed into new bottles and jars, sandblast material and construction aggregate.

PAPER

Much of the paper collected is sold to mills across North America and recycled into new products like cardboard boxes, paperboard packaging and tissue.

Follow these guidelines to keep recyclable materials out of the landfill!

- Line it up.** Put your yellow bag between your boxes, not on top. Leave about 1 m (3 ft) of space between recycling boxes/bags and your garbage bin.
- Keep it clean.** Empty and rinse containers to prevent contamination of recyclable materials and avoid attracting wildlife when you put them out for collection.
- Flatten and cut.** If your cardboard is too large for the yellow bag, flatten and cut it into smaller pieces, no larger than 76 cm x 76 cm (30 in x 30 in). Stack them loosely between your boxes and yellow bag.
- Avoid litter.** Don't overfill your recycling boxes. If you can't fit everything comfortably, contact Recycle BC's collection partner for an additional box or use a similar open box (like a laundry basket or storage box) to sort your material properly.
- Connect with us.** Download our app, email us at info@recyclebc.ca or reach out on social media @RecycleBC.
